Introducing LinenMe

My name is Inga Lukauskiene, and I am a Lithuanian-born interior designer. I have a real passion for textiles, particularly linen. I love absolutely everything about it: its strength, texture and durability; the way it ages beautifully; and - I have to admit - even its natural crumples.

Over past centuries, in many cultures worldwide, one of the most important heirlooms a loving mother could give to her daughter on her wedding day was linen passed down from previous generations. Now, linen has become a key must-have for stylish homes with a pared back aesthetic and a focus on quality.

Lithuania, and my family, have strong traditions of flax growing and linen production, and I have always felt that more could be done to represent the beauty of Lithuanian linen and fine craftsmanship. With this idea in mind, I graduated from London's KLC School of Design, and decided to focus on creating beautiful home accessories from linen. LinenMe is the result.

I am excited to introduce you to LinenMe, the brand you can trust for one of the widest ranges of simple, sustainable and stunning linen homewares. I hope you enjoy exploring our edit of home textiles and clothes.

Yours,

A handwritten signature in black ink, reading 'Inga'. The script is elegant and cursive, with the 'I' and 'g' being particularly prominent.

What's our story?

LinenMe is a small yet rapidly growing business. We design, manufacture and deliver probably the widest range of linen home textiles to more than sixty countries around the world. Our aim is to ensure that each and every item we carry in our collection, or make specially for you, is simple, sustainable and stunning. We can help you offer your customers top quality, beautiful homewares that are designed to last and to enhance any interior.

UNDERSTATED LUXURY

All our product designs are inspired by what our customers need and are meticulously developed by myself. My family has worked in the flax industry for two generations, and I bring a wealth of knowledge and expertise to my designs. I know how to make linen look and perform its best. This kind of personal approach offers our clients the individual attention to detail of a bespoke luxury brand, without the price tag. We are, simply, great at what we do.

CRAFTED TO LAST

We have our own manufacturing unit in Lithuania, with more than forty years of linen production experience. From a stock of over 1000 different linen fabrics we craft all your items to order using a combination of traditional and cutting-edge technologies. We understand linen - how it cuts, how it sews and how to bring out the best in each piece of fabric. Every product has a bespoke feel, and is hand-checked to make sure it meets the highest quality standards.

EXTENSIVE COLLECTION

We offer a wide ranging yet carefully curated collection. We are proud to offer customers top quality textiles for every room and every season. Driven by an understanding of how our customers live, we have created an ever-expanding edit of beautiful products in a range that would be hard to find elsewhere. We are proud to be in the position to offer luxurious and affordable linen every day.

SUSTAINABILITY

At LinenMe we are committed to ensuring our products are sustainably produced. Linen itself is an environmentally-friendly fabric as it requires fewer resources to grow and process, and is biodegradable. We use every last inch of fabric in our production process to minimise waste, and we craft products that are made to last, in keeping with our slow-living aesthetic.

Bed Linen

Stone Washed

Now linen bedding is found in all of our homes where it is appreciated for its qualities of softness & absorbency.
