

Every step counts

Started in 2012 by Tina Steneman, Rug Solid was created with a vision of unifying design and sustainable production methods, creating the design products of tomorrow.

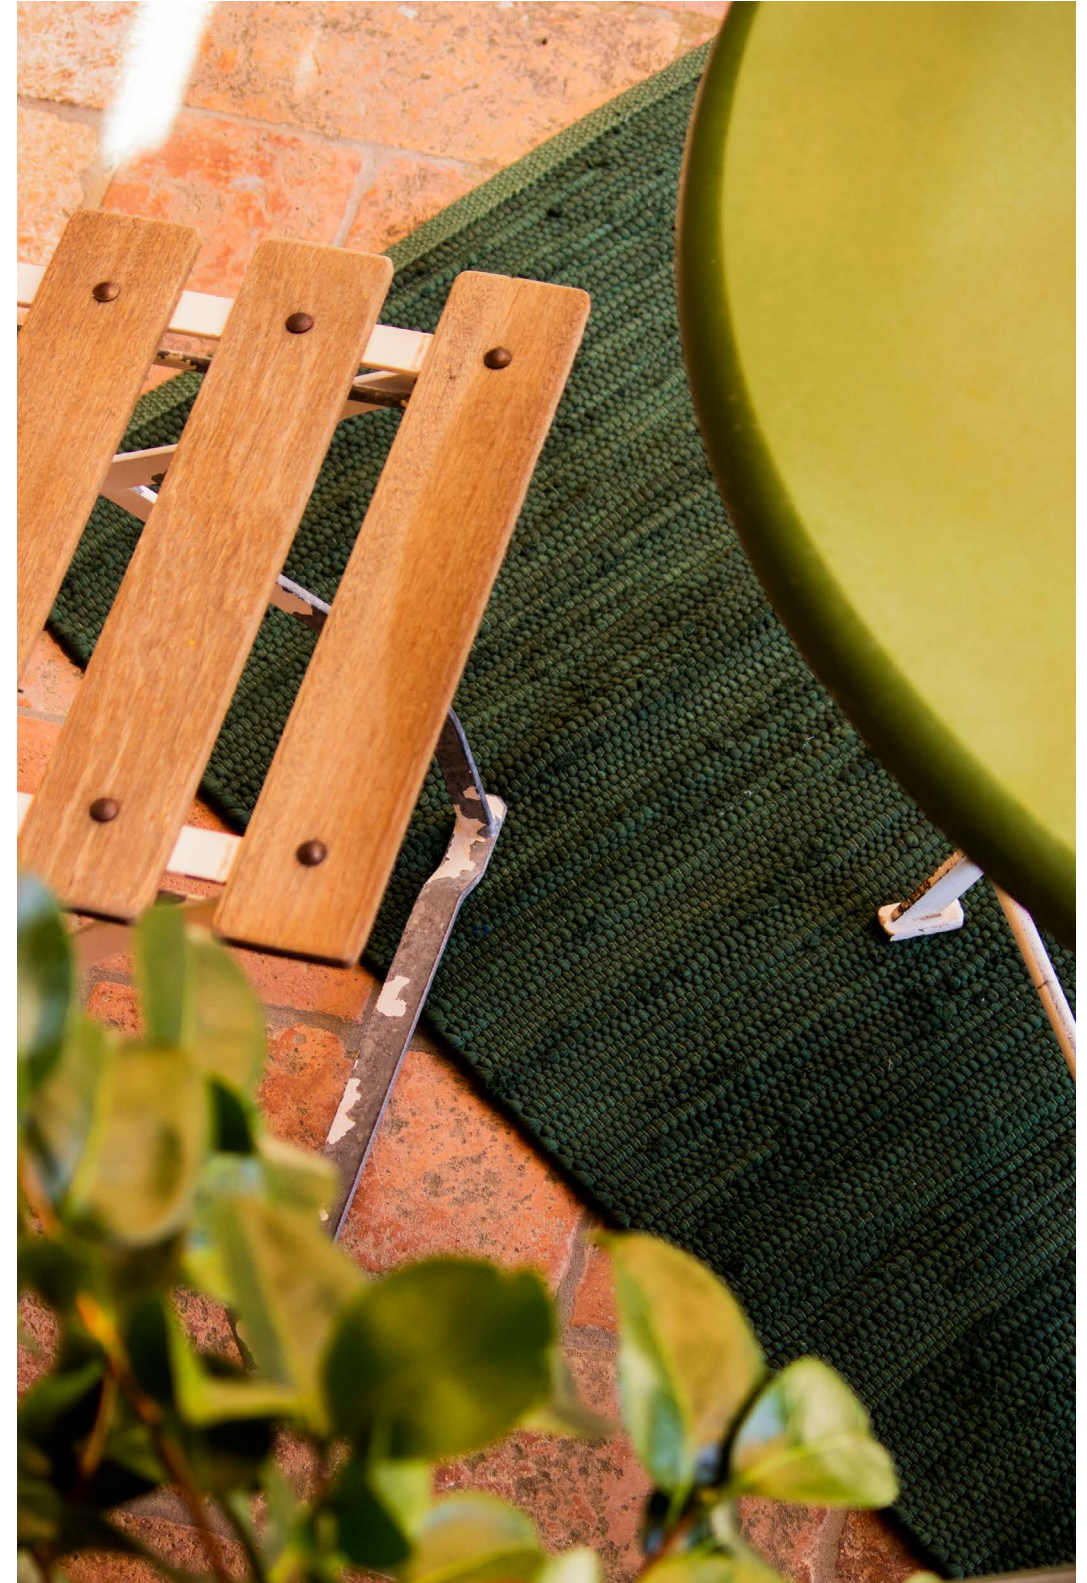

Today, Rug Solid invites you to a world of beautiful rugs handmade by artisans using organic, up-cycled and recycled materials.

This year we turn to Italy, a country full of iconic design and beautiful nature. Inspired by Italy, our Spring / Summer 2019 catalog is made to bring you the feeling of the warm and relaxed days from the Vineyard to the pool.

Cotton collection

As old clothes are thrown away each day without second thoughts, we give those clothes a second thought. Our artisans sort cotton off-cuts originating from the fashion industry, cut them into strings and weave them together carefully by hand. This is particularly visible in our mixed color designs, with each rug portraying a unique story.

Optimistic notes of spring

This year we introduce four new colors for our classic cotton rug. These colors are inspired by the optimistic notes of spring as the dew on the grass in the morning, the blossoming flowers and berries as well as the rainy days.

Dusty Jade

| 75 x 200 | 549 | 695 | 75 |
| 75 x 300 | 779 | 995 | 115 |
| 140 x 200 | 999 | 1.325 | 140 |
| 170 x 240 | 1.299 | 1.725 | 185 |

Leather collection

In the production process of the leather collection our artisans select leather off-cuts from the fashion industry.

They cut these off-cuts into strings and weave them together by hand. For the thread, we use recycled cotton originating from the fashion industry.

Into the forest

Our newest color for the leather collection is a unique shade of brown. As the name implies, Wood was inspired by the wooden color of forest trees.

| 250 x 350 | 3.999 | 5.000 | 540 |

Jute collection

Due to the natural shine, strength and sustainability traits, jute has become known to be the 'Golden Fiber'.

Our jute collection features a production process where we mix our leather off-cuts with the natural fiber, creating a golden texture.

Smooth Grey

| 140 x 200 | 1.999 | 2.695 | 275 |

Horizon collection

The Horizon collection combines a mix of recycled fishnets and pure wool in an innovative new blend. Designed by Paris-based designer Jocelyn Deris, the Horizon collection is based on a geometric view of landscapes as seen from above.

| 160 x 240 | 3.749 | 4799 | 510 |

Rain collection

Inspired by water gliding subtly into multiple paths on surfaces caused by rainfall; the Rain collection was created. For our second collaboration with Jocelyn Deris, the Rain collection was realised in the thickest and softest weave from cotton off-cuts we have made to date.

The last mile

In India, the birthplace of our rugs as well as Denmark, the heart of our designs; bicycling is a common choice of transportation. Whenever a wheel is punctured, the bicycle tube is often replaced depending on the level of damage. This has always been the last mile of any bicycle tube. However, in our most innovative rug design to date, we reuse these bicycle tubes, cut them into strings and weave them into a beautiful new rug, turning the last mile into the first.

To ensure responsible production standards we are a part of the Global Recycled Standard. This means our production is continuously controlled by an external partner to ensure good conditions for both people and the environment from start to finish. Sustainability, this is the attribute embodied by the spirit of Rug Solid and lives through everything we make.
