— THE —  
**ORGANIC**  
COMPANY

**“We imagine a world  
in which all businesses,  
regardless of size, take social,  
environmental and financial  
responsibility in all parts of  
the supply chain.”**

*The Organic Company*

## THE REASON WE ARE HERE

8

IT MATTERS

The reason we are here | 5

In a time when humanity needs to rethink the future to sustain life on this planet, we consider responsible business a necessary game changer.

*We imagine a world in which all businesses, regardless of size, take social, environmental and financial responsibility in all parts of the supply chain.*

It is not naive. It is the inevitable future.

That is why we offer products made of 100% organic cotton for customers who want luxurious, sustainable goods of premium quality.

*We want our products to last long enough to be passed on. And we insist on developing a new, sustainable standard of designed goods.*

So we take no shortcuts and we constantly challenge to improve. That is how we make a small difference every day.

One certified organic product at a time.

We believe in the human ability to create change. We believe that respect comes when respect is given and we believe in the future.

*That is why we are here.*

**RESPONSIBLE BUSINESS**

Joy Vasiljev is known as a visionary, inspiring and uncompromising entrepreneur, who is not afraid to speak up and point out things that are not right.

It all started with a lot of questions. Why is it so hard to find textiles that combine great design with organic materials? Why do we have to choose between the two? Are we showing responsible behavior when it comes to protecting our planet?

*In 2007, The Organic Company was established with the clear mission of proving that a responsible business is good business.*

Every product is thoroughly considered with regards to both design and purpose because Joy believes that the better the product, the better you take care of it.

And this fits well with an organic lifestyle.

It was not an easy start. The world simply wasn't ready. And people were unaware of the extremely dirty industry of cotton.

*12 years later, The Organic Company produces more than 200 different products and exports to more than 26 countries.*

Today, Joy is an important voice in the debate on organic lifestyle, environment and sustainability. She teaches and gives speeches in order to open people's eyes to the fact that there are different and better ways of doing things.

*Good intentions aren't enough. Change demands action.*

Joy Vasiljev, founder of The Organic Company.

IT MATTERS

## GOTS CERTIFIED BY SOIL ASSOCIATION

GOTS stands for Global Organic Textile Standard and is a global and strict standard within organic cotton and social responsibility.

Soil Association is a UK-based charity organization, which has been working with organic agriculture for more than 2 decades. Soil Association is our appointed certifier.

GOTS is a thorough standard with 40 pages of “zero tolerances” against pesticides, solvents, heavy metal and bad chemistry.

And GOTS covers the entire supply chain from farmer, mill and dying house to sewing house and brand holder.

All of us are inspected. Every year.

The Organic Company is GOTS certified since 2010.

**License no 21797**

Did you know that GOTS certified organic cotton production produces **94%** less greenhouse gasses compared to conventional cotton production?

Did you know that **91%** less clean water is used in GOTS certified organic cotton production compared to conventional cotton production?

*Source: Soil Association.*

## WHO WE ARE

### SIMPLE AND HONEST DESIGN – WITH A PURPOSE

It’s okay to develop, produce and trade. And there is nothing wrong in consuming. There is just something wrong with the way we consume – and to which extent.

***The planet is challenged. This is a generally accepted fact across the world.***

If we still want the chance to change the course of things towards a more responsible and sustainable way of living before it is too late, it demands a serious effort and a significant change in the way we think, live and prioritise.

Cotton is present in every aspect of our life. We dress in cotton, we dry ourselves with cotton, we sleep in cotton. Only, the production of conventional cotton has consequences for both the environment and people.

This is the reason why we have chosen to work with organic cotton certified by the strictest standards when it comes to environmental and social responsibility in every link of the supply chain.

Another perspective on the battle against fast consumerism, is a “LESS AND BETTER” way of living.

We believe in making high quality products that meet your needs because it means that you take better care of it and keep it for a long time. You may even pass it on.

***It is our design philosophy that a new product must either solve a problem, meet a need or enhance a category.***

Our design combines function, quality and aesthetics expressed in a simple and typically Scandinavian way.

We in The Organic Company believe that we all have the ability and the power to create change.

***And it starts today.***

# No waste

Earth Overshoot Day was in 2018, August the 1st.

Earth Overshoot Day marks the date when humanity has used more from nature than our planet can renew in that entire year.

In other words, WE HAVE TO cut down on disposables and start using things over and over again.

## Napkin

To replace disposable paper towels.

## All Purpose Bag

To replace disposable plastic and paper bags.

## Lunch Bag

To replace disposable plastic and paper lunch bags.

## Kitchen and wash cloth

To replace single use cloths and cloths made from micro fibres.

## Food Bag

To replace disposable plastic and paper food bags.

## Big Waffle Kitchen and Wash Cloth

To replace single use cloths and cloths made from micro fibres.

### My Organic Bag

To replace disposable plastic and paper bags.

### Big Little Bag

To replace disposable plastic and paper bags.

### The Cloth

To replace disposable giftwrapping paper.
