Our purpose

In a time when humanity needs to rethink the future to sustain life on this planet, we consider responsible business a necessary game changer.

We imagine a world in which all businesses, regardless of size, take social, environmental and financial responsibility in all parts of the supply chain.

It is not naive. It is the inevitable future.

That is why we offer products made of 100% GOTS certified organic cotton for customers who want luxurious, sustainable goods of premium quality.

We want our products to last long enough to be passed on. And we insist on developing a new, sustainable standard of designed goods.

So we take no shortcuts and we constantly challenge to improve. That is how we make a small difference every day.

One certified organic product at a time.

We believe in the human ability to create change. We believe that respect comes when respect is given and we believe in the future.

This is why we are here.

Responsible business

Joy Vasiljev is known as a visionary, inspiring and uncompromising entrepreneur, who is not afraid to speak up and point out things that are not right.

It all started with a lot of questions. Why is it so hard to find textiles that combine great design with organic materials? Why do we have to choose between the two? Are we showing responsible behavior when it comes to protecting our planet?

In 2007, The Organic Company was established with the clear mission of proving that a responsible business is good business.

Every product is thoroughly considered with regards to both design and purpose because Joy believes that the better the product, the better you take care of it.

And this fits well with an organic lifestyle.

It was not an easy start. The world simply wasn't ready. And people were unaware of the extremely dirty industry of cotton.

13 years later, The Organic Company produces more than 200 different products and exports to more than 26 countries.

Today, Joy is an important voice in the debate on organic lifestyle, environment and sustainability. She teaches and gives speeches in order to open people's eyes to the fact that there are different and better ways of doing things.

Good intentions aren't enough. Change demands action.

Bath and wellness

Calm intro

Please welcome CALM; our newest towel design series.

CALM is developed to merge practicality, luxury and design.

We wanted to design a terry series with an outstanding look - proving itself on an everyday basis. With the two-sided combination of terry and plain weave and subtle design details, the CALM series is designed for an easy lifestyle both at home and on the go.

Go for a clean Nordic design combined with high absorbency. Mix different colors together or mix with styles from our BIG WAFFLE or WELLNESS series for the perfectly imperfect look.

Each CALM product is designed with a strap or looped band for easy hanging. The bath towel is enhanced with a wrap functionality - to solve the awkwardness of a towel falling down, when you trust it to stay.
