OUR PURPOSE

In a time when humanity needs to rethink the future to sustain life on this planet, we consider responsible business a necessary game changer.

We imagine a world in which all businesses, regardless of size, take social, environmental and financial responsibility in all parts of the supply chain.

It is not naive. It is the inevitable future.

That is why we offer products made of 100% GOTS certified organic cotton for customers who want luxurious, sustainable goods of premium quality.

We want our products to last long enough to be passed on. And we insist on developing a new, sustainable standard of designed goods.

So we take no shortcuts and we constantly challenge to improve. That is how we make a small difference every day.

One certified organic product at a time.

We believe in the human ability to create change. We believe that respect comes when respect is given and we believe in the future.

This is why we are here.

RESPONSIBLE BUSINESS

Joy Vasiljev is known as a visionary, inspiring and uncompromising entrepreneur, who is not afraid to speak up and point out things that are not right.

It all started with a lot of questions. Why is it so hard to find textiles that combine great design with organic materials? Why do we have to choose between the two? Are we showing responsible behavior when it comes to protecting our planet?

In 2007, The Organic Company was established with the clear mission of proving that a responsible business is good business.

Every product is thoroughly considered with regards to both design and purpose because Joy believes that the better the product, the better you take care of it.

And this fits well with an organic lifestyle.

It was not an easy start. The world simply wasn't ready. And people were unaware of the extremely dirty industry of cotton.

14 years later, The Organic Company produces more than 200 different products and exports to more than 26 countries.

Today, Joy is an important voice in the debate on organic lifestyle, environment and sustainability. She teaches and gives speeches in order to open people's eyes to the fact that there are different and better ways of doing things.

Good intentions aren't enough. Change demands action.

COLOR CONCEPT

When Joy designed our checked kitchen towels she grouped all our colors and color themes appeared.

“And when displaying the colors groupwise, calmness and connection came” she adds.

The theme names are all rooted in the nature surrounding us: earth, ocean and floral.

The classic theme is inspired by Nordic noir and the many months of dark color surroundings in Scandinavia.

We hope to inspire you with these color combinations. They show you a possible way to display our colors in groups in a fine harmony, both in the stores and at home.

A photograph of two chefs in a kitchen. The chef on the left is wearing a dark blue long-sleeved shirt and a light grey apron, pouring contents from a brown paper bag into a terracotta bowl. The chef on the right is wearing a white long-sleeved shirt and a dark grey apron, with their hand near the bowl. They are standing at a light-colored wooden counter. The background is blurred, showing kitchen equipment and warm lighting.
